

**HUMAN BIOLOGY
ASSOCIATION**

Application for Student Membership

The Human Biology Association is an international, nonprofit organization incorporated in 1974. Members include scientists in physical and biological anthropology, medicine, dentistry, public health, genetics, nutrition, child growth, epidemiology and related professions.

The objectives of the Human Biology Association are to:

- Promote research and teaching in human biology and related fields,
- Encourage communication and utilization of the results obtained from such research,
- Stimulate discussions among human biologists concerning common goals and problems, and
- Aid in the training of persons engaged in scholarly research in the human biological disciplines

Student members:

Those who are registered as students in a human biological discipline at an accredited college or university. Student members pay reduced annual dues and are eligible for membership at the reduced rate for a period of five (5) years only. Student members have the privileges of membership, but they are not eligible to vote or hold office. They must also obtain the signature of a faculty advisor or the university registrar attesting to their student status upon paying dues at the student rate.

Applicant's Full Name: _____

Institution: _____

Email: _____

Name of Advisor or Registrar (please print): _____

Title: _____
